

LG Optimus F3 Back Camera Replacement

This is a guide to repair the back camera unit if it is broken. This guide is very easy, only need to unscrew the screws and disconnect the connection between the camera unit and the motherboard.

INTRODUCTION

This is a replacement guide on how to replace your back camera unit on your LG Optimus F3

TOOLS:

- [iFixit Opening Tools](#) (1)
 - [64 Bit Driver Kit](#) (1)
 - [Tweezers](#) (1)
-

Step 1 — Back Camera

- Remove the battery cover.

Step 2

- Unscrew 10 1.0 mm screws on the back.

Step 3

- Use a plastic opening tool to separate the rear plastic case carefully.

Step 4

- The camera is right there !

Step 5

- Use a plastic opening tool to detach the connector between the back camera and the mother board.

Step 6

- Carefully remove the camera.

Step 7

- There you go !

To reassemble your device, follow these instructions in reverse order.
